JOURNAL OF APPLIED MECHANICS AND TECHNICAL PHYSICS

Volume 33, Numbers 1-6, 1992

(A translation of *Prikladnaya Mekhanika i Technicheskaya Fizika*)

Engl./Russ.

Volume 33, Number 1, January-February, 1992

Model of the Expansion of a Low-Temperature Laser Plasma in a Vacuum - A. N. Polyanichev ..... 1 3
Mechanism of Subthreshold Defect Formation in Electron-Thermal Processes - V. V. Grishaev ..... 8 10
Change in the Surface Tension Coefficient of Metals in an Electric Field - A. L. Shabalin ..... 12 15
Shock Wave Structure in Ternary Gas Mixtures with Large Molecular Mass Disparity - G. A. Ruev, V. M. Fomin, and M. Sh. Shavaliev ..... 15 17
Estimate of the Temperature Field in a Compressible Medium - T. A. Butina ..... 20 23
Probability of Formation of Coatings of Thermally Active Particles - V. P. Bushlanov ..... 24 26
Effect of a Gravitational Field on the Stratification of Suspensions in Vertical Flows - A. N. Latkin ..... 27 29
Experimental Study of the Behavior of the Energy Spectrum in a Turbulent Flow in a Tube Rotating Relative to Its Longitudinal Axis - P. G. Zaets, A. T. Onufriev, N. A. Safarov, and R. A. Safarov ..... 31 33
Relationship between Turbulent and Kinetic Energy in a Mixed Substance - V. E. Neuvazhaev ..... 35 38
Turbulent Flow and Heat Transfer of a Chemically Reacting Gas Mixture in a Channel behind an Accelerating Piston - A. M. Bubenchikov and S. N. Kharlamov ..... 39 43
Cascade Processes and Fractals in Turbulence - A. G. Bershadskii ..... 44 49
Hydraulic Resistance of Swirl Chambers with a Fluid Layer - M. A. Gol'dshtik and S. S. Dashin ..... 48 53
Capillary Instability of an Extending Jet - S. L. Zhbankova and A. V. Kolpakov ..... 52 57
Shock and Expansion Waves in Transonic Flow - A. S. Fonarev ..... 56 62
An Exact Solution for the End Effect of a Wing of Finite Size in Supersonic Flow - N. F. Vorob'ev ..... 59 65
Boundary Layer of Thin Short Wings - V. I. Shalaev ..... 64 71
Steady Rise of a Liquid Drop in a Viscous Liquid - P. K. Volkov ..... 71 78
Propagation of Long Waves of Finite Amplitude in a Liquid with Polydispersed Gas Bubbles - N. A. Gumerov ..... 79 88
Change in the Permeability Coefficient of a Medium as a Function of the Electric Current Density Passing through It - A. E. Popov, A. D. Rybakov, and V. I. Selyakov ..... 86 96
Impulsive Hydraulic Rupture of a Porous Medium - Yu. I. Voitenko, A. V. Mikhalyuk, and A. V. Tokarchuk ..... 88 98
Do Brittle and Plastic Materials Differ when Spalling? - A. G. Ivanov and V. A. Ogorodnikov ..... 91 102
The Most Restrictive Bounds on Change in the Applied Elastic Constants for Anisotropic Materials - N. I. Ostrosablin ..... 95 107
Energy Version of Creep and Stress-Rupture Strength Theory for Anisotropic and Isotropic Materials which Differ in Resistance to Tension and Compression - Kh. I. Al'tenbakh and A. A. Zolochevskii ..... 101 114
Experiments on Breaking Cast Iron Blocks with Dynamic Loading - V. M. Kornev, V. V. Korobkov, and R. A. Kulagin ..... 107 121
A Question Concerning the Longitudinal Impact of a Body onto a Rod - S. A. Bublik and I. G. Kadomtsev ..... 109 123

| | Engl./Russ. | |
|---|---|---|
| Compact Representation of the Fundamental Solution of the Internal Lamb Problem on a Free Surface - A. S. Tyapin and A. I. Startsev | 111 | 126 |
| Calculation of a Cracked Anisotropic Plate Strengthened with Fastened and Bonded Ribs - V. N. Maksimenko and V. N. Pavshok | 118 | 133 |
| One Model for Stability Loss in a Plane Ideal Crystal under Tension - A. I. Mel'nikov | 125 | 141 |
| Rotational-Instability Kinetics in Stretched Silicon Whiskers - S. A. Antipov, I. L. Bataronov, A. I. Drozhzhin, A. P. Ermakov, and A. M. Roshchupkin | 128 | 144 |
| Computer Simulation of Microstructure Formation in a Piezoelectric Ceramic - D. N. Karpinskii and I. A. Parinov | 134 | 150 |
| Change in Volume of Real Elastomers under Uniaxial Tension - K. F. Chernykh and E. K. Lebedeva | 138 | 154 |

**Volume 33, Number 2, March-April, 1992**

| | | |
|---|---|---|
| Decrease in Phase Density in Very Bright Beams - A. L. Shabalin | 141 | 3 |
| Calculation of the Electrostrictive Effect in Prestressed Ferroelectric Ceramic Shells under Harmonic Excitation - V. M. Bogomol'nyi | 150 | 12 |
| Pulsed-Voltage Studies of an Ion-Exchange Pump with an Axisymmetric Collector - N. P. Avdeev, V. A. Borisov, R. K. Romanovskii, and M. A. Chinak | 156 | 18 |
| Anomalies of the Shock Compressibility of Water - G. E. Bogdanov and A. P. Rybakov | 162 | 23 |
| Shock Wave Propagation through a Vertical Foam Column with a Density Gradient - A. B. Britan, I. N. Zinovik, and V. A. Levin | 166 | 27 |
| Propagation of Internal Waves in an Exponentially Stratified Liquid above a Protuberance - A. A. Korobkin | 171 | 32 |
| Effect of the Nonlinear Dependence of Surface Tension of Temperature on the Shape of a Free Surface with Convective Movement in a Liquid - A. E. Indeikina, Yu. S. Ryazantsev, and V. M. Shevtsova | 177 | 38 |
| Analog of the Shallow-Water Vortex Equation for Hollow and Tornado-Like Vortices. Height of a Steady Tornado-Like Vortex - V. V. Nikulin | 185 | 47 |
| Influence of a Fan of Rarefaction Waves on the Development of a Disturbance in a Supersonic Boundary Layer - S. A. Gaponov, A. D. Kosinov, A. A. Maslov, and S. G. Shevel'kov | 191 | 52 |
| Mechanism for Coalescence of Gas Bubbles Moving in a Viscous Fluid - A. N. Kotyusov, B. E. Nemtsov, and E. E. Orlova | 194 | 55 |
| Pulsation Spectrum Generation during Subharmonic Transition in Boundary Layers - M. B. Zel'man and I. I. Maslennikova | 197 | 58 |
| Transition Radiation in One-Dimensional Elastic Systems - A. I. Vesnitskii and A. V. Metrikin | 202 | 62 |
| Mathematical Model of Acoustic Flutter of Supersonic Grills - A. V. Gubarev and S. A. Laptev | 208 | 68 |
| Stability of a Gas Boundary Layer on a Heated Surface with a Weak Negative Pressure Gradient - Yu. I. Bublikov and V. M. Fomichev | 214 | 72 |
| Experiments on Underexpanded Wall Jets - E. G. Zaitsev | 218 | 76 |
| Influence of Thermal Effects on Hydrodynamic Stability of a Polymerization Front - G. V. Zhizhin and A. S. Segal' | 222 | 81 |
| Motion of Two-Phase Fluids in Tubes of Variable Cross Section with Local Inputs of Mass and Energy - A. N. Gavrilov and V. P. Korobeinikov | 230 | 89 |
| Modeling Transient Turbulent Axisymmetric Flow in Narrow Gaps between Contoured Rotating Surfaces - V. K. Nikul'chikov, N. D. Sosnovskii, and A. V. Shvab | 235 | 94 |
| Sedimentation of a Cloud of a Bidispersed Aerosol onto a Flat Horizontal Surface - G. M. Makhviladze, D. V. Serov, and S. E. Yakush | 241 | 101 |

| | Engl. | Russ. |
|---|---|---|
| Friction and Heat Transfer in the Turbulent Boundary Layer of Rotating Systems - É. P. Volchkov, N. A. Dvornikov, and V. I. Terekhov | 249 | 109 |
| Numerical Modeling of Two-Phase Turbulent Flows in Combustion Chambers - I. N. Gusev and L. I. Zaichik | 257 | 116 |
| Modeling the Process of Melt Solidification on the Surface of a Material - V. I. Kirko, V. I. Marilovtsev, and N. I. Pak | 264 | 122 |
| Velocities of Elastic Waves in Consolidated Granular Media - N. A. Golikov and A. D. Zaikin | 268 | 127 |
| Model of the Fractal Profile of a Fatigue Crack - G. V. Vstovskii | 272 | 130 |
| Theory of Creep of Metallic Materials Allowing for the Effect of the Similarity Phase of the Deviators - Yu. I. Kadashevich and S. P. Pomytkin | 279 | 138 |
| Action of a Concentrated Force on a Cylindrical Shell Reinforced by a Stringer - V. P. Ol'shanskii | 284 | 142 |
| Study of the Effect of Explosive Shock Loads on Soft Soil - N. N. Gerdyukov, A. G. Ioilev, and S. A. Novikov | 291 | 149 |
| Dynamic Problem of the Interaction of a Circular Die with Soil Regarded as an Elastovisco-plastic Half-Space - A. M. Il'nitskii, O. V. Kantur, and G. V. Rykov | 294 | 152 |
| Measurement of the Temperature Field during the Planar Steady-State Flow of a Metal - S. I. Ishutkin, G. E. Kuz'min, V. V. Pai, and L. L. Frumin | 299 | 157 |
| Propagation of Combustion Waves in Bubbly Media - G. S. Sukhov and L. P. Yarin | 307 | 165 |

**Volume 33, Number 3, May-June, 1992**

| | | |
|---|---|---|
| Stability of Thin Silicon Targets Exposed to a High-Flux Beam of Relativistic Electrons - B. R. Meshcherov and V. I. Tumanov | 309 | 3 |
| Electrical Charge Distribution on a Dielectric Surface - E. A. Zobov and A. N. Sidorov | 313 | 7 |
| Spectroscopic Diagnostics of a Plasma Expanding into a Background Gas and a Magnetic Field - A. M. Orishich and I. F. Shaikhislamov | 319 | 13 |
| Stable Regimes for a Nonequilibrium Pulsed-Periodic Discharge in a Stream of Molecular Nitrogen at High Pressure - V. P. Silakov and A. V. Chebotarev | 324 | 19 |
| Contracted Discharge in the Presence of Boundary Layers in a Supersonic Plasma Flow in a Channel - M. G. Musaev | 331 | 26 |
| Optimization of the Internal Source in the Problem of MHD Flow around a Sphere - V. I. Shatrov and V. I. Yakovlev | 334 | 30 |
| Thermal Stability of Continuous Media with Variable Thermophysical Characteristics - T. A. Bodnar' | 342 | 38 |
| Development of Oblique Waves in a Two-Dimensional Subsonic Boundary Layer - Yu. I. Bublikov and V. M. Fomichev | 350 | 45 |
| Sound Generation by a Tollmien-Schlichting Wave at the End of a Plate in a Flow - L. B. Aizin | 355 | 50 |
| Asymptotic Theory of Görtler Vortices in the Boundary Layer of a Liquid - V. V. Bogolepov and I. I. Lipatov | 363 | 58 |
| Geometrical Acoustics Approximation for Surface Waves - I. N. Aliev | 375 | 69 |
| Excitation of Thermal-Capillary Convection at a Deformable Interface in Systems with a Surface-Active Agent - A. A. Nepomnyashchii and I. B. Simanovskii | 379 | 73 |
| Dispersion of a Substance in Narrow Channels in a Lubricant Layer - A. I. Moshinskii | 386 | 79 |
| Quasilinear System of Equations for Parameters of Developed Turbulence. Calculation of Irrotational Flow Distortion behind a Grid - S. R. Bogdanov and G. F. Lekhto | 396 | 90 |
| Phenomenological Description of Two-Velocity Media with Relaxing Tangential Stresses - V. N. Dorovskii and Yu. V. Perepechko | 403 | 97 |
| Equilibrium Shape of a Crystal - V. A. Misyura | 410 | 104 |

| | Engl. | Russ. |
|---|---|---|
| Energy Approach to Solving Problems of Nonclassical Theory for Nonuniform Anisotropic Shells Containing a Crack-Slit - V. N. Yurkov | 414 | 108 |
| Solution of Nonlinear Contact Problems for a Half-Plane - L. G. Dobordzhginidze | 419 | 112 |
| Fundamental Solutions of the Theory of Unidirectional Composites - E. A. Lankina and A. M. Mikhailov | 426 | 120 |
| Refinement of the Relations of the Kol'skii-Hopkinson Compound-Rod Method - V. M. Kornev | 434 | 127 |
| Equations of the Linear Theory of Elasticity - N. I. Ostrosablin | 438 | 131 |
| Experimental Investigation of the Dynamic Behavior of Tubular Samples of Composite Fiber Materials at the Limit of Carrying Capacity - A. V. Aseev, G. E. Makarov, and S. V. Stepanenko | 447 | 140 |
| Multi-Particle Differential Methods in the Statics of Composites - V. A. Buryachenko and V. Z. Parton | 455 | 148 |
| Equilibrium and Stability of a Nonlinear-Elastic Plate with a Tapered Disclination - M. I. Karyakin | 464 | 157 |
| The Moiré Method in the Study of Dynamic Deformation Processes in Elastic-Plastic Bodies - V. N. Aptukov, V. F. Kashirin, R. T. Murzakaev, and B. I. Usachev | 471 | 163 |
| Mössbauer Analysis of Retained Austenite - V. P. Larionov, Ya. S. Semenov, and S. G. Kas'yanov | 477 | 169 |

**Volume 33, Number 4, July-August, 1992**

| | Engl. | Russ. |
|---|---|---|
| Self-Similar Solutions of Diffusion Problems of a Magnetic Field in a Conductor - A. V. Chervyakov | 481 | 3 |
| Structure, Propagation, and Reflection of Shock Waves in a Mixture of Solids (The Hydrodynamic Approximation) - A. V. Fedorov and N. N. Fedorova | 487 | 10 |
| Numerical Investigation of Flame Propagation and Extinction in a Vertical Channel - G. M. Makhviladze and V. I. Melikhov | 494 | 18 |
| Comparison of Models of Dissociation in the Absence of Equilibrium between the Translational and Vibrational Degrees of Freedom - V. G. Shcherbak | 501 | 26 |
| Formation of a Nonequilibrium Energy Distribution over Vibrational Degrees of Freedom of the $H_2O$ Molecule as Water Vapor Expands in a Supersonic Nozzle - A. B. Britan, V. A. Levin, A. M. Starik, and A. N. Khmelevskii | 506 | 32 |
| Decay of a Vertical Tornado-Like Vortex - V. V. Nikulin | 515 | 42 |
| Acoustic Approximation in the Penetration of an Ideal Fluid by a Blunted Contour - A. A. Korobkin | 520 | 48 |
| Propagation of a Signal in a Liquid with a Continuous Distribution of Bubble Sizes - S. L. Gavrilyuk | 526 | 54 |
| Sediment Transport by Turbulent Flow above a Bottom Subject to Erosion - A. G. Petrov and P. G. Petrov | 531 | 61 |
| Model of Turbulent Motion in an Incompressible Liquid in Apparatus with a Permeable Barrier - Sh. A. Ershin and U. K. Zhapbasbaev | 539 | 69 |
| Instability of the Periodic Flexure of a Panel Surface in a Turbulent Boundary Layer - V. P. Reutov | 544 | 74 |
| Modeling Separation Boundaries in the Flow of a Heavy Fluid over a Wing Profile - M. V. Lotfullin and S. I. Filippov | 552 | 84 |
| Variational Method of Constructing Subsonic Airfoil Profiles - S. M. Aul'chenko | 558 | 90 |
| Numerical Modeling of Impulsive Jets of a Viscous Heat-Conducting Gas - N. M. Bulgakova | 561 | 93 |
| Instability in the Tension of a Cylindrical Layer of Fluid - V. K. Andreev and A. A. Rodionov | 567 | 100 |

Engl./Russ.

Effect of the Choice of Creep Instability Criterion on the Solution of the Problem of Optimizing Rod-Shaped Structures - M. N. Kirsanov ..... 573 107
Asymptotic Analysis of Problems on the Free Vibration of Rectangular Transversely Isotropic and Three-Layer Plates - V. M. Kornev and A. O. Mul'kibaev ..... 576 110
Effective Strength Parameters of Composites in Coupled Physicomechanical Fields - V. A. Buryachenko and V. Z. Parton ..... 589 124
Effect of Reinforcing Structures on the Critical Deformability and Strength of Shells Made of Oriented Glass-Plastic Composites under an Internal Explosive Load - A. G. Ivanov, M. A. Syrunin, and A. G. Fedorenko ..... 594 130
Physicomechanical Nature of the Effect of Material Strengthening for Whiskers and Thin Filaments - V. Z. Vasil'ev and S. Yu. Kaptelin ..... 598 135
Two-Level Model of the Dynamic Deformation of Metals - Yu. I. Meshcheryakov and G. G. Savenkov ..... 603 141
Partial Opening of a Crack with Injection of a Viscous Liquid - O. P. Alekseenko and A. M. Vaisman ..... 607 145
The Grüneisen Coefficient of UPV-1 Pyrolytic Carbon - A. P. Stepovik ..... 611 150
Stability of a Viscoelastic Rod on Dynamic Loading - U. Akbarov, F. B. Badalov, and Kh. Éshmatov ..... 613 153

**Volume 33, Number 5, September-October, 1992**

Influence of Magnetic Viscosity on the Development of Instability of the Boundary of a Plasma Blob in a Uniform Magnetic Field - Kh. S. Kestenboim, E. V. Metelkin, G. V. Fedorovich, and A. G. Frolov ..... 617 3
Asymptotic Forms of Phase Functions for Nonabsorbing, Radially Inhomogeneous Particles - N. N. Belov and S. O. Suslov ..... 626 12
Converging Shock Waves in Media with Decreasing Density - É. É. Lin, É. N. Pashchenko, and V. N. Pavelkin ..... 629 16
Allowing for Intermolecular Energy Exchange in the Description of Relaxation Processes in Terms of Adiabatic Variables - V. M. Strel'chenya ..... 633 20
Oscillations in the Parallel Discharge of Two Supersonic Nonisobaric Jets - S. G. Mironov ..... 641 29
Structure of a Combination Discontinuity in Gas Suspensions in the Presence of Random Pressure from Particles - A. V. Fedorov ..... 648 36
Investigation of the Stability Characteristics of a Compressible Boundary Layer on a Flat Plate at High Mach Number - S. E. Grubin, I. N. Simakin, and V. N. Trigub ..... 653 41
Two-Dimensional Stokes Flow of a Viscous Fluid with a Free Boundary under the Effect of Capillary Forces - S. A. Chivilikhin ..... 658 47
Calculation of Viscous Flow of a Vibrationally Nonequilibrium Gas Mixture in a Hypersonic Nozzle - S. V. Dolgushev and M. I. Muchnaya ..... 663 51
Effect of Wall Curvature with Wavy Downflow of a Thin Layer of Viscous Liquid - Yu. Ya. Trifonov ..... 668 56
Flow of a Liquid Film in a Cocurrent under the Action of External Factors - S. E. Ageev ..... 676 65
The Structure of a Rising Thermal - S. Yu. Gorbunov, B. N. Gordeichik, A. P. Darintsev, V. N. Zabavin, B. V. Zamyshlyaev, B. I. Zaslavskii, A. T. Onufriev, and M. D. Shcherbin ..... 680 70
Variational Principles for Two-Phase Infiltration into a Deformable Medium - P. A. Mazurov ..... 685 76
Effect of High-Frequency Vibration on Filtration Convection - S. M. Zen'kovskaya ..... 691 83
Unsteady Radiative-Conductive Heat Transfer in a Porous, Permeable Layer of a Semitransparent Medium - A. L. Burka and V. V. Dudkin ..... 696 88

| | Engl. | Russ. |
|---|---|---|
| Quasi-Isotropic Approximate Equations of Weak Acoustoelasticity - A. É. Puro | 700 | 92 |
| Technical Stability of the Dynamic States of an Extended Rod with a Variable Cross Section, Moving Longitudinally in a Fluid - K. S. Matviichuk | 705 | 97 |
| Application of the Method of Aggregates to the Solution of Mixed Problems in Elasticity Theory - L. A. Nazarov | 713 | 106 |
| Effect of a Plane Acoustic Pressure Wave on a Reinforced Cylindrical Shell - N. I. Aleksandrova and I. V. Efimova | 717 | 110 |
| Developing Determinant Perturbations in Collapsing Shells - A. G. Ivanov, Yu. D. Lavrovskii, and V. A. Ogorodnikov | 723 | 116 |
| Stability of Nonlinear Flexure Waves in Cylindrical Shells - V. V. Novikov and Sh. M. Khasanov | 726 | 119 |
| Analysis of Threshold-Free Fracture of Materials on Reflection of a Compression Pulse from a Free Surface - A. V. Utkin | 729 | 123 |
| Effective-Field Method in the Statics of Composite Materials - V. A. Buryachenko and V. Z. Parton | 735 | 129 |
| Oscillations of an Ice Sheet under a Periodically Varying Load - V. M. Kozin and V. V. Skripachev | 746 | 141 |
| Plastic Flow Localization in Simple Shear - V. M. El'kin | 751 | 146 |
| Elastic Characteristics of Elastomers - E. K. Lebedeva | 756 | 151 |
| Numerical Investigation of the Interaction of a Plane Wave with a Multilayered Cylinder in the Ground - K. Atabaev, N. Mamadaliev, R. K. Khanov, and Sh. D. Shamgunov | 758 | 154 |

**Volume 33, Number 6, November-December, 1992**

| | Engl. | Russ. |
|---|---|---|
| Current Density Distribution at the Periphery of Submicron Probes - A. L. Shabalin | 769 | 3 |
| Calculation of the Irregular Interaction of Shock Waves - I. S. Belotserkovets and V. I. Timoshenko | 775 | 9 |
| Gas Dynamics of Impulsive Jets and Pressure Oscillations on a Laser-Irradiated Target - N. M. Bulgakova and L. I. Kuznetsov | 780 | 14 |
| Numerical Investigation of the Heating of Condensed Media by Volume Heat Sources - Yu. V. Zhitnikov and Yu. I. Zetser | 787 | 22 |
| Effect of Impulsive Erosion Flame Parameters on Pressure Pulsations - N. M. Bulgakova and L. I. Kuznetsov | 793 | 28 |
| Anomalous Light Absorption by a Turbulent Plasma - O. V. Klimov and A. A. Tel'nikhin | 797 | 32 |
| Asymptote of the Navier–Stokes Equation Solution in the Vicinity of a Boundary Angle - V. A. Kondrat'ev | 802 | 38 |
| The Thermocapillary Effect and Small Oscillations of a Liquid at Large Marangoni Numbers - V. A. Batishchev | 805 | 41 |
| Stability of a Rotating Weightless Liquid Phase in Zone Melting - M. A. Svechkareva and L. A. Slobozhanin | 811 | 47 |
| Long-Wave Processes in a Periodic Medium - V. A. Vakhnenko and V. V. Kulich | 814 | 49 |
| Investigation of the Temperature Regimes of Bodies Immersed in Flow with Surface Blowing - V. I. Zinchenko, A. G. Kataev, and A. S. Yakimov | 821 | 57 |
| Dynamics of the Behavior of Nematic Films in Gas-Dynamic Flows - G. M. Zharkova, N. G. Preobrazhenskii, and S. I. Trashkeev | 828 | 64 |
| Mode Switching in a Supersonic Boundary Layer - A. V. Fedorov and A. P. Khokhlov | 831 | 67 |
| Turbulent Flow of a Gas Suspensate Whose Particles Interact Strongly with the Channel Walls - I. V. Derevich | 836 | 73 |
| Effect of Fracture Rate on the Dynamics of the Interaction of an Impact Load Pulse with the Surface of a Solid - A. V. Utkin | 844 | 82 |

| | Engl. | Russ. |
|---|---|---|
| One-Dimensional Projection of a Liquid Shell by an Explosive Charge - V. K. Kedrinskii and N. N. Chernobaev | 851 | 90 |
| Heat and Mass Transport in Bundles that Move and Give Off Gas - V. I. Eliseev and Yu. P. Sovit | 857 | 96 |
| Dynamic Disintegration and Expansion of a Liquid Volume - R. M. Aksenov, A. A. Zverev, O. V. Kovalenko, V. K. Sirotkin, and E. V. Sumin | 863 | 103 |
| The Behavior of Shells under Impulsive Loading. Small Perturbations - A. G. Ivanov, V. A. Ogorodnikov, and E. S. Tyun'kin | 871 | 112 |
| Numerical Analysis of Crack Development in Structurally Nonuniform Composites - E. A. Lankina | 874 | 115 |
| Effect of Anisotropy of the Medium on the Stresses on the Surface of a Crack - L. F. Kolker, G. N. Mirenkova, and É. G. Sosnina | 880 | 121 |
| Mathematical Model of the Deformation and Fracture of Solid Fuel in Shock Loading - A. B. Kiselev and M. V. Yumashev | 885 | 126 |
| Laws of the Kinetic Theory of Strength of Frozen Soils - A. A. Konovalov | 892 | 134 |
| Problem of the Theory of Beams with Initial Stresses - A. G. Kolpakov | 897 | 139 |
| Calculation of Pressure in Solid-Phase Process Vessels with Shaped Anvils - Yu. A. Sadkov and L. B. Solodukhina | 903 | 145 |
